

WHAT IS CYBER RALLY-O?

“Cyber Rally-O offers the opportunity for you and your dog to participate in the fun sport of rally obedience by video entry. In addition, CRO offers a Dance Division featuring fixed pattern dances done to music. Fearful and reactive dogs can have fun and earn titles in an environment that is comfortable for them. All dogs (and their people) are welcome! Dogs and handlers with physical challenges are accommodated. Choose your courses, video your runs, and enter them for judging. Results are e-mailed to you, and your ribbons and title certificates are sent by snail mail.” (<https://groups.yahoo.com/neo/groups/cyberrally-O/info>)

- Leashes are optional in CRO.
- Food rewards may be used during the course in CRO.
- Handlers may choose to work in Heel or Side position
- Each dog-handler team is judged on their execution of a single, continuous performance of numbered exercises on a course, without interruption from a judge.
- Perfect position is not required at the lower level(s), but a loose leash must be maintained throughout the course.
- Handlers may talk to their dogs throughout the performance and multiple hand or verbal cues can be given.
- The emphasis in all Rally venues is on **FUN** and **TEAMWORK!**

For information about this wonderful new sport, check it out on the web. You will find everything you need to know to get started. All the courses, grouped by levels, are there, as are instructions for entries, rules, etc.
